## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 1-3, 9-11, 14-17, and 20 are allowed (Re-numbered as 1-11)
2. The following is an examiner's statement of reasons for allowance:

Prior art of record do not teach the combination of claimed elements including:

"each map  $R_i$  defines a mapping from the set of all possible contexts to the set of all possible contexts to the set of all possible contexts, each context being defined by a tuple of  $n$  attribute values for the  $n$  attributes,

each map  $R_i$  is undefined for at least one context in the set of all possible contexts whereby each map  $R_i$  is recursion free, and

defining a sequence of contexts that begins with the entry context from the set of  $m$  maps, each successive context in the sequence of contexts being derived from the preceding context in the sequence of contexts by application of one of the maps, the applied map in each derivation being the first of the maps that is not defined for the proceeding context in the sequence of context." as recited in independent claims 1, 10, and 15.

Thus, prior art of record neither renders obvious nor anticipates the combination of claimed elements in light of the specification. Dependent claims 2-3, 9, 11, 14, 16-17, and 20 are allowed at least by virtue of their dependencies from their pertinent independent claims. After a further search and a thorough examination of the present

Art Unit: 2162

application and in light of the prior art made of record, claims 1-3, 9-11, 14-17, and 20 are allowed.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
